

Intro Days: Security Risk Management

The staff and mentors welcome you to the master's programme in Security Risk Management. We are looking forward to meeting you and have prepared four exciting days to introduce you to your new academic surroundings.

During the four days, you will be introduced to the academic staff, student advisors, your mentors and fellow classmates, and perhaps most excitingly, the program itself. Furthermore, we will show you around the campus to get you familiar with the facilities at your new university. The Student Association will make sure that you are introduced to the city of Copenhagen and all the SRM-students, both new and old.

This pamphlet will give a preliminary overview of the introduction program for Security Risk Management, which will take place from August 30th to September 1st, and September 4th.

Most activities will be centred around your new campus, Center for Health and Social Studies (CSS). The address is Øster Farimagsgade 5, 1353 København K.

There is a map of CSS and an explanation of the abbreviations on the last page of the pamphlet.

Wednesday August 30th

MANAGE THE UNMANAGEABLE

MSc. IN SECURITY RISK MANAGEMENT

Map of Center for Health and Social Studies (CSS)

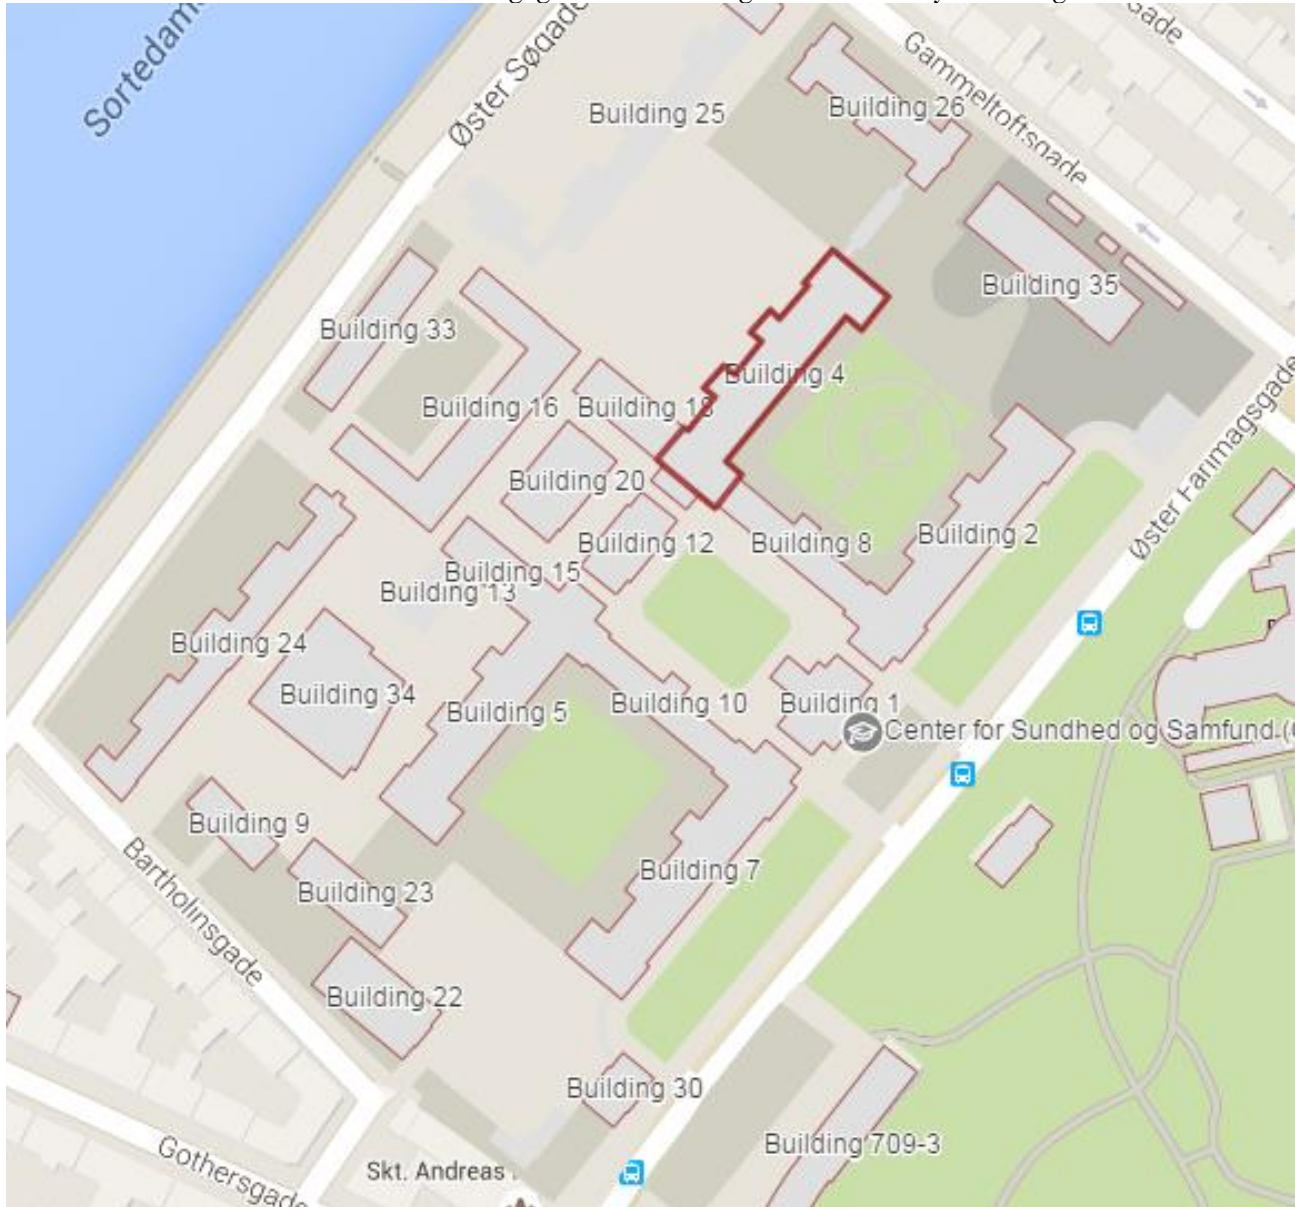

A digital map can found at:

http://samf.ku.dk/pdf/kort_css.pdf/ or
<http://socialsciences.ku.dk/campusmap/>

Often used locations:

Administration:	Building 4, 2 nd floor
Political Science front desk:	Building 8, 2 nd floor
Bookshop:	Building 7, Gr. floor
Cafeteria:	Building 5, Basement
Computer facilities:	Building 2, Basement
Institute Library:	Building 4, Gr. Floor
Student facilities:	Building 12 and 8, basement

The main entrance is at Øster Farimagsgade and through entrances by building 1

All rooms at CSS have a number to tell where to find it.

The number has three sections. First is the number of

the building, then
- 01 for basement,
- 0 for ground floor
- 1 for first floor
- 2 for second floor

2.01.22
Building | Floor | Room

The last number is the number down the hallway.
There is no logic why some numbers miss in the line.

If you want to find the computer facilities in room 2.01.22 you go to building 2 in the basement and then room 22 in the hallway
